

# Instructions for accessing test accounts in the VIP Reseller Console

## Before you begin

- The test data provided for you is an area where you can test how the Reseller Console works, and you can click buttons, add users, add seats, etc. However, none of the data will be saved.
- Also, this test account will not trigger any emails to be sent, so, although you may enter an email address to invite a customer or additional team member, an email will not actually be sent.
- The test data is the view for an Admin, therefore the information and screens displayed are what the Reseller Admin will see, not necessarily the same as what additional Team Members (non-Admins) will see.

## Accessing the Reseller Console test account:

1. Go to: <https://reseller.adobe.com/features/01670469ff039d85>
2. Log in using your Adobe ID (which should be your Adobe email address).
3. Follow the instructions in the [Reseller Console User Guide](#), beginning with adding your colleagues (Team Members).
4. Click on Customer Dashboard, and then follow the instructions for *inviting your customers*.

Try adding seats, and viewing the customer details.

## Attn Resellers currently selling VIP

If you are a reseller that is already selling VIP and has access to the live Reseller Console, please re-launch your internet browser once completing the practice session. If not, your browser will remain in the test system.

## Accessing the Admin Console test account:

1. Go to [http://creative.adobe.com/?feature\\_set=nlcc4e7503](http://creative.adobe.com/?feature_set=nlcc4e7503) (You'll now see the basic Creative Cloud screen where you can download software)
2. Log in with your Adobe ID.  
**Note:** If you are unable to login, this could be because you are using an Adobe ID associated with an existing Creative Cloud account. If you do, create a new Adobe ID [here](#).
3. Copy and paste this URL into your browser: <https://creative.adobe.com/team/admin/2>
4. You are now in the Admin Console screen, signed in as a customer Admin.
5. Use the account "The Flintstones" to see an accurate representation of what having multiple active users will look like.

You can add additional administrators, invite users (assign seats), add seats, and authorize the reseller to purchase the seats.

Please see the Reseller Console User Guide, appendix—*Admin Console User Guide* for step by step instructions.
